Please join us for a fun and informative afternoon at Top Golf in Dallas.

What is Top Golf?

TopGolf is the "New Game in Golf" that anyone can play. Played with real clubs and golf balls, players tee off from a driving bay onto a landscaped outfield with targets ranging in distance from 20 to 240 yards. The goal is to score points as you hit balls into the targets. Every golf ball has a microchip inside that tracks and gives players instant feedback on how far the ball was hit, and how close it came to the flagstick. These two components are then utilized to award a point value for every golf ball. The monitor screen in every station will display this information and keep track of the game for you. TopGolf is a fun, interactive and competitive experience that is played in a no pressure environment. **Anyone who can physically swing a golf club can play!!**

TopGolf is for everyone.
